Electrical and Industrial Robotics Technician with hands-on experience in electrical installations, warehouse optimization, and nationwide customer service. Currently expanding my skill set through training in Python and SQL, with the goal of applying my knowledge to the field of Artificial Intelligence.

International experience in Canada has strengthened my adaptability and cross-cultural communication skills. Highly motivated by continuous learning and driven to take on new challenges.

Willing to relocate: Anywhere

Work Experience

Technical Sales Specialist

Grupo Elektra-Barcelona, Barcelona provincia
August 2025 to Present

Commercial role within an industrial materials distribution company, managing a wide range of projects across multiple sectors, including railway, ATEX-certified environments, and general industrial applications.

Responsible for client advisory, identifying technical solutions, optimizing processes, and supporting project development from initial concept to scaling and implementation. Focused on improving operational efficiency, ensuring compliance with industry standards, and building long-term customer relationships.

After-Sales Support Technician

Jensen Group-Barcelona, Barcelona provincia
December 2022 to August 2023

I traveled across Spain and other countries as an After-Sales Technician, specializing in the installation of industrial washing and drying machinery, as well as the maintenance of previous models. I maintained constant communication with the factory in Denmark to ensure smooth and efficient operations.

Specialized Technical Service

Schneider Electric-Barcelona, Barcelona provincia
September 2021 to October 2022

During my time at Schneider Electric as a Technical Support Specialist, I developed expertise in providing nationwide technical assistance in areas such as automation, electrical equipment, limit switches, sensors, large-scale circuit breakers, servo motors, PLCs, and electric vehicles.

Traffic Control Systems Installation and Assembly

Aluvisa S.L.-Barcelona, Barcelona provincia
November 2018 to February 2020

In my role within traffic control systems, I specialized in the assembly and installation of controllers, traffic lights, and road signage panels, as well as handling related control systems. I also supported warehouse operations.

My responsibilities included ensuring the proper functioning and safety of installed equipment, as well as participating in order preparation and packaging to guarantee timely deliveries.

Education

Big Data and Artificial intelligence (Master's degree)
iFP - Formación Profesional Barcelona L'Hospitalet-Barcelona, Barcelona provincia
September 2023 to May 2025

Industrial Automation and Robotics (Associate's degree)
Escola del Treball-Barcelona, Barcelona provincia
September 2019 to May 2021

Electrical and Automatic Installations (College certificate)
Escola del treball-Barcelona, Barcelona provincia
September 2017 to May 2019
